Liz & Todd,

The draft OU8 Waste Disposal Memo is ready for transmittal to EPA. The memo itself is just a few pages of text, but the figure covers a large portion of Cherokee County and made the consolidated pdf file size quite large at around 22 MB. That is too large to attach to an email so I have uploaded it to Microsoft OneDrive. You should have already received an email with link to the file or you can download it at following location. Please let me know if you have any issues with the download or questions/comments on the tech memo.

Thx  
CF
